

Module 1: Mobile Login & Multi-Device Pairing

Master 100+ Hidden Features, Privacy Secrets & Pro Tips | InRapid Digital Guides

Welcome to the Official WhatsApp Hacks Guide.

Learn how modern WhatsApp handles phone linking and multi-device sessions.

- Pairing with Phone Number: Open Web -> Link with phone number instead of QR
- Multi-Device Sync: How messages synchronize across up to 4 companion devices
- Session Security: Auditing Linked Devices under Settings -> Linked Devices
- Remote Termination: Instant one-tap logout from forgotten browser sessions

Module 2: Chat Export & Media Archiving Pro Tips

Master 100+ Hidden Features, Privacy Secrets & Pro Tips | InRapid Digital Guides

Easily download, backup, and preserve important conversation records:

- Export Chat: Open Chat -> More -> Export Chat [with or without media]
- Storing Chat Transcripts: Creating clean ZIP packages of voice notes and PDFs
- Search Filters: Using unread, photos, videos, links, and documents filters
- Starred Messages: Bookmarking important addresses, codes, and receipts

Module 3: Privacy Shield & Stealth Status Secrets

Master 100+ Hidden Features, Privacy Secrets & Pro Tips | InRapid Digital Guides

Control exactly who sees your activity, last seen, and status updates:

- Last Seen & Online: Customizing visibility to [Nobody] or [My Contacts Except...]
- Read Receipts Trick: Reading messages from notification drawer or preview
- View Once Media: Understanding ephemeral privacy mechanics and storage
- Status Watch: Viewing friend status updates without triggering read logs
